

Michael
Klishin
Front-end Developer

Profile

Front-End Developer with proven experience at Zillow and HubSpot in helping companies create and maintain a better code base for reusability. Capable of continuous learning from senior developers while still nurturing junior developers. Experience in driving projects forward as the development team leader, facilitating projects from concept to launch. Passionate about learning and development with a desire to apply skills on a larger development team at Redfin. Eager to tackle more complex problems and continue to find ways to maximize user efficiency.

Employment History

Developed membership, event, and legal platform technology solutions, and automated internal processes. • Generated \$50K+ in annual ad revenue as a system administrator of a large network of websites. • Designed and implemented web applications along with 3rd-party software integrations as a web team liaison for all interdepartmental and customer-facing projects. • Developed a node.js server to validate membership and track digital badges being used, saving the company \$22.5K.
